

MangoldVision

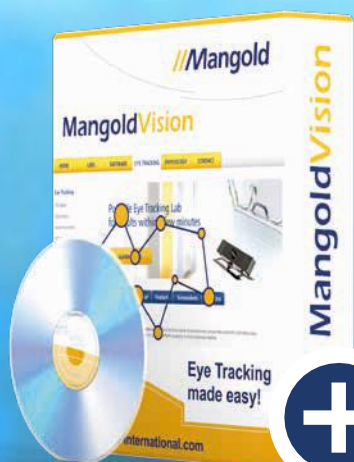

Professional
Eye Tracking
made easy!

Features

Presentation of Images as Stimulus	✓
Presentation of Texts	✓
Presentation of Questionnaires	✓
Multi-Dimensional Randomized Stimulus Presentation	✓
Definition of Arbitrary Attributes for the Subjects	✓
Recording the Subject via Web-Cam	✓
Integration of Physiological Data with Mangold Data View	✓
Merging Projects	✓
Export Raw Gaze Data	✓
Adjust Calculation of Fixations	✓
Filter on Participant Attributes	✓
Allows for Multiple Gaze Data Re-Calibration	✓
Intelligent Smoothing of Gaze Data	✓
Synchronized Visualization of Participant Video in Relation to Recorded Stimuli	✓
Result-Visualization as Gaze Replay (on Image Stimuli)	✓
AOI Editor (on Image Stimuli)	✓
Automatic AOI Generation	✓
Editor for Dynamic AOIs (on Video Stimuli)	✓
Statistical Analysis based on AOIs	✓
Export Statistical Results	✓
AOI Gaze Pattern Visualization	✓
Export Gaze Replay Video (from Image Stimuli)	✓
Export Bee-Swarm Videos (from Image Stimuli)	✓
Recording Screen Videos	✓
Recording Internet Specific Tests	✓
Presentation of Videos as Stimulus	✓
Recording Live Camera View in Real World Applications	✓
Result-Visualization as Heat Map (on Image Stimuli)	✓
Result-Visualization as Focus Map (on Image Stimuli)	✓
Result-Visualization as Gaze Replay (on Video Stimuli)	✓
Export Heat Video (on Image Stimuli)	✓
Export Heat Images (from Video Stimuli Sequences)	✓
Export Focus Video (on Image Stimuli)	✓
Export Gaze Replay Video (from Video Stimuli)	✓
Export Bee-Swarm Videos (from Video Stimuli)	✓
Presentation and Special Analysis Options of Internet Web-Recording	✓
Data Import from other Eye Tracking Systems	✓
